Introduction

Avenue Supermarts Limited (ASL) is an emerging national supermarket chain operating under the brand name “DMart”. Our business approach is to focus on value-retailing. Majority of products stocked by us are everyday products forming part of basic rather than discretionary spending.

We endeavor to foster a governance philosophy that is committed to maintaining accountability, transparency and responsibility, which are integral to the Company’s day-to-day operations. We have established a strong internal framework that oversees various aspects of the organisation’s administration. Through this robust framework we aim to promote strong ethics, a positive culture and long-term sustainability.

To strengthen our commitment to responsible business, we are also complying with the mandate of the Securities and Exchange Board of India (SEBI) to publish a Business Responsibility Report (BRR) based on National Voluntary Guidelines (NVG) as part of our annual report. BRR serves as a tool to communicate the performance of organizations on Economic, Social and Governance (ESG) parameters to its stakeholders. It also motivates a company to measure, disclose and be accountable for organizational performance while working towards the goal of responsible and sustainable development. This also suggests Companies to develop policies across the nine principles as mentioned in the NVG.

We have prepared a Policy Manual consisting of “policy statements” which is a combination of our existing policies, SOPs, protocols and other internal documents. All the relevant stakeholders shall be informed about this policy manual by publishing it on the website of the company.
